Description

Tilburg-Nederland-Paradox

Breakcore is the bastardchild of many musical genres like Jungle, IDM, Hardcore, Punk, Ragga, Breakbeats, Industrial and Noise. The most important rule is..? There are no rules! Early breakcore came from 80’s industrial, and got big with Digital Hardcore from the ‘90’s. Always evolving and adding new influences to the canon of breakcore, the artists invited here keep pushing the boundaries. Always forward developing and from the beginning till forever it is having some kind of anarchistic attitude.
Breakcore can be Rave and breakcore can be one big moshpit.
